Note:

Rename this spreadsheet file as "SISRR Div Y-Z" where Y and Z are your div nos.

Enter shooter details and scores on this sheet ONLY. They will automatically replicate on the results sheet.

Replace "Y" or "Z" in the division number cell (D13 and D26) with the appropriate division number (the title is then determined automatically).

Fill in club numbers, names, initials and averages (important). Enter "Bogey" in the name for each bogey in the division (you need do nothing else for them).

Enter NCR rather than 100 for any missing scores. Enter DQ for any disqualified scores.

Scores will not appear on the result sheet until Y is entered in the red cell under the round number. This will allow scores to be entered in advance and not show on the results sheet.

This spreadsheet can be used for two divisions. If you want only one, you can delete the rows for the second from the results sheet (you can also delete them from this scores sheet but that is not essential).

After each round is complete, select the result sheet and menu File > Export > PDF. Ensure the range is "selected sheets" then click Export. Save the file as You can hide these 9 rows if you don't need the instructions any more.
